Occupational Therapy Vocational Services

Meet Alex. He faithfully volunteers twice a week for a couple of hours to help with manufacturing the products that are sold in the Rancho Works Gift Shop. Alex says that when he stays at home, he thinks about all the things he used to do, like working as an electric lineman, which he no longer can physically do after his spinal injury. By coming here to volunteer, he has a reason to get out of the house and do something productive. Alex says he enjoys to use his hands to build and make things. Alex has learned to operate a die cutting machine to help cut out paper embellishments that are assembled onto greeting cards that are sold in the Gift Shop. Each card that is purchased from the Rancho Works Gift Shop is a labor of love that several hands have contributed to in making the final product.
