Rancho Works Enterprises Program

Rancho Works Enterprises is part of the Vocational Services program with the goal to help patients gain skills to find employment. This group meets twice a week for two hours for eight weeks. Patients of any diagnosis practice good work habits by following a weekly schedule and procedures to get ready for the daily demands of working. Participants in this group are involved in manufacturing, labeling, and packaging all the handcrafted items in the gift shop while addressing their therapy goals to improve their balance, dexterity, strength, coordination, cognition, social interaction skills, and endurance. Come to the Rancho Café and Gift Shop to support our patients and see all the beautiful ceramic pottery, natural soaps, handmade greeting cards, and jewelry that are handcrafted by this group! 100% of all money raised go back to the Rancho Works Enterprise program, where our mission is helping people with different abilities return to work.
